March 5, 2024

Andrew Ellenberger
Senior Safety Coordinator
DLZ Corporation
6121 Huntley Rd.
Columbus, OH 43229

Dear Mr. Ellenberger:

This letter is regarding the request dated February 13, 2024, signed by Ram V. Rajadhyaksha, Vice President, to amend your U.S. Nuclear Regulatory Commission (NRC) Materials License No. 13-20218-01.

The U.S. NRC's guidance document for your type of license is NUREG-1556, Volume 1, Rev. 2, dated June 2016, "Consolidated Guidance About Materials Licenses, Program – Specific Guidance About Portable Gauge Licenses." This guidance is available on the U.S. NRC website at: <https://www.nrc.gov/docs/ML1617/ML16175A375.pdf>

Upon review of the request, I identified the following area requiring additional or clarifying information:

Section 8.7.1, "Radiation Safety Officer," of the guidance identifies that the appointed Radiation Safety Officer (RSO) must have adequate training and experience.

Acceptable training and experience includes completion of a manufacturer/distributor's course or an equivalent, including supervised hands-on training and experience with portable gauging devices.

While the request included documentation of the completion of a Radiation Safety Officer training course, it is not apparent that this course included hands-on training and experience. Please state whether you have had this required training and provide documentation of the completion of this training.

In accordance with [Title 10 of the Code of Federal Regulations \(10 CFR\) §2.390](#) of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC website at: <https://www.nrc.gov/reading-rm/adams.html>.

To continue review of your request, please submit your response to this letter within 15 calendar days from the date of this letter. In your response, please refer to the license, docket, and control number specified below. I will assume that you do not wish to further pursue this licensing action if I do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the information stated above, I encourage you to contact me at (630) 829-9737 or via e-mail at Jason.Kelly@nrc.gov.

Sincerely,

Jason M. Kelly, MPH, CPH
Health Physicist
Materials Licensing Branch
