Title: Public Preapplication Meeting on AP300 White Paper "I&C Concept of Operations"

Date(s) and Time(s): March 22, 2024, 12:30 PM to 12:45 PM ET

Location: Teleconference

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose is for a PUBLIC portion of the meeting for Westinghouse staff to introduce its upcoming AP300 White Paper on "I&C Concept of Operations." The discussion will likely be centered on the main control room, how safety functions would be monitored and actualized, and the philosophy of operations. The white paper itself is intended to be submitted well after this meeting.
