Dear Cleve Reasoner:

This refers to an investigation conducted by the U.S. Nuclear Regulatory Commission's (NRC's) Office of Investigations regarding activities at Wolf Creek. The Office of Investigations initiated the investigation to determine whether Wolf Creek Security Supervisors willfully falsified Security Officer's On-The-Job Training (OJT) training records.

Based on the evidence developed during the investigation, the concern that Security Supervisors willfully provided false information in OJT documents was not substantiated. The NRC plans no further action related to the willful aspect of this allegation and considers this investigation closed.
