

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 12, 2024

Fadi Diya, Senior Vice President
and Chief Nuclear Officer
Ameren Missouri
Callaway Energy Center
8315 County Road 459
Steedman, MO 65077

SUBJECT: QUALITY ASSURANCE PROGRAM APPROVAL FOR
RADIOACTIVE MATERIAL PACKAGES NO. 0520, REVISION 9

Dear Fadi Diya:

On December 21, 2023 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML23310A186), the U.S. Nuclear Regulatory Commission (NRC) approved Union Electric Company, doing business as Ameren Missouri (the licensee) a revision to the Operating Quality Assurance Manual (OQAM) for Callaway Plant, Unit No. 1 (Callaway), that was submitted to the NRC on November 16, 2022 (ML22327A206), for review in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) Section 50.54, "Conditions of licenses." In this approval letter, the license condition stated below was erroneously deleted from the NRC Form 311.

"Activities conducted with regard to transportation packagings under applicable criteria of Appendix B to 10 CFR Part 50 authorized by this approval: procurement, maintenance, repair, and use. All other activities (i.e., design, fabrication, assembly, testing, and modification) shall be satisfied by obtaining certifications from packaging suppliers that these activities were conducted in accordance with an NRG-approved Quality Assurance Program. It shall remain the responsibility of the Quality Assurance Program holder that all transportation activities meet the requirements of 10 CFR 71.101."

Enclosed is the Quality Assurance Program Approval for Radioactive Material Packages No. 0520, Revision 9. Revision 9 restores above license condition. This Approval satisfies the requirements of 10 CFR 71.17(b) and 71.101(f) for a OQAM approved by the NRC, as well as approval of those changes to your OQAM that are considered reductions in commitments to the NRC prior to implementation as required by 10 CFR 71.106.

Termination of a materials license does not cause an Approval to be automatically terminated. If you wish to amend an Approval and have determined it reduces commitments, or terminate the Approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved package, you must be registered for use of that package with NRC. Registration for

use of NRC-approved packages should be made pursuant to 10 CFR 71.17(c)(3).

In accordance with 10 CFR Part 2, "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>. The PDR is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

If you have any questions, please contact Raju B. Patel at Raju.Patel@nrc.gov.

Sincerely,

Signed by Rodriguez-Luccioni, Hector
