Re: Notice of Change in Control (License 50-21374-01)

Dear Ms. Willis:

In response to our phone conversations and the email dated January 30, 2024, I am forwarding the required information in regards to a Change of Control of the above referenced license. As discussed, 49-50 experienced a change of control when Sam McLane passed away in 2023. At that time, Cody McLane, became the sole owner/operator of 49-50.

The facilities and licensed materials remain at 38240 Kenai Spur Hwy, Soldotna, Alaska.

We appreciate your assistance with this license amendment. If you need additional information or would like to discuss the transaction further, please reach out to us

Respectfully,

Cody McLane
Owner/Operator & RSO
49-50

1. Describe any planned changes in the organization, including but not limited to, transfer of stocks or assets and mergers, change in members on Board of Directors, etc. Provide the new licensee name, mailing address, and contact information, including phone numbers. Clearly identify when the amendment request is due to a name change only.

Effective February 4, 2023 upon the death of Sam McLane, all assets of 49-50 located at 38240 Kenai Spur Highway, Soldotna, Alaska 99669 became 100% owned and operated by Cody McLane who previously owned 50% of 49-50. This includes the radioactive materials contained within NRC License 50-21374-01. Outside of Cody McLane assuming all duties formerly performed by Sam McLane, all staff, facilities, equipment, and procedures remain the same.

2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel and any changes in the training program.

Except for duties formerly conducted by Sam McLane and assumed by Cody McLane, all personnel and active gauge users remain the same. Cody McLane has assumed the role of Radiation Safety Officer.

3. Describe any changes in the location, facilities, equipment, radiation safety program, use, possession, waste management, or other procedures that relate to the licensed program.

As a result of this change, there have been no change to the location, facilities, equipment, use or radiation program.

4. Describe the status of the licensee's facilities, equipment, and radiation safety program, including any known contamination and whether decontamination will occur prior to transfer. Include the status of calibrations, leak tests, area surveys, wipe tests, training, quality control, and related records.

All portable nuclear moisture/density gauges are current on both calibration and leak tests. All training is current. There is no known contamination in conjunction with devices.

5. If current decommissioning funding plans (DFP) will be changed as a result of the transfer, the revised DFP should be submitted. If other financial assurance documents will be changed as a result of the transfer, confirm that all financial assurance instruments associated with the license will be held in the transferee's name before the E-2 license is transferred, and as required by 10 CFR 30.35(f), the licensee must, within 30 days, submit financial instruments reflecting such changes.

This section is not applicable.

6. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.

All devices associated with NRC License 50-21374-01 remain under the ownership and control of 49-50.

7. Confirm that both transferor and transferee agree to transferring control of the licensed material and activity, and the conditions of transfer, and that the transferee has been made aware of any open inspection items and its responsibility for possible resulting enforcement actions.

Cody McLane, as the sole owner of 49-50 agrees to the transfer of control of radioactive materials associated with NRC License 50-21374-01.

8. Confirm that the transferee will abide by all constraints, conditions, requirements, representations, and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

Cody Mclane, as the sole owner of 49-50 will abide by all constraints, conditions, requirements, representations, and commitments of the transfer.

9. The transferee, in the case of fuel cycle facilities, shall provide documentation showing that it is financially qualified to conduct normal operations. The information can be in the form of income statements and balance sheet forecasts.

This section is not applicable

Subject: 49-50 Transfer of Control

Hi Cody,

I was out of the office last week, but I wanted to provide you with the information needed to process the transfer of control. In order to complete the transfer of control, please respond to the questions listed in Appendix E of NUREG 1556, Volume 15, "Consolidated Guidance About Materials Licenses: Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Materials Licenses." I have attached Appendix E for you. More information can be found at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v15/index.html>.

Please let me know if you have any additional questions. Thank you.

Best Regards,

Giavanna Muffelitto

This is to acknowledge receipt of your: Letter and/or Application Dated: 02/07/2024

The initial processing, which included an administrative review, has been performed.

Amendment Termination New License Renewal

There were no administrative omissions identified during our initial review.

This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.

Your application for a new NRC license did not include your taxpayer identification number. Please complete and submit NRC Form 531, Request for Taxpayer Identification Number, located at the following link: <http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>
Follow the instructions on the form for submission.

The following administrative omissions have been identified:

Your application has been assigned the above listed MAIL CONTROL NUMBER. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
