

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

March 8, 2024

SECRETARY

MEMORANDUM TO: Raymond V. Furstenau
Acting Executive Director for Operations

FROM: Carrie M. Safford, Secretary

SUBJECT: STAFF REQUIREMENTS – SECY-22-0112 – PROPOSED RULE:
RADIOACTIVE SOURCE SECURITY AND ACCOUNTABILITY
(3150-AK83; NRC-2022-0103)

The Commission was unable to reach a decision on the staff's recommended proposed rule on radioactive source security and accountability that would amend regulations in Title 10 of the *Code of Federal Regulations* to further ensure validity of license applicants. Therefore, the proposed rule is not approved.

The staff should explore other rulemaking pathways to update the oral certification method and remove the obsolete method of obtaining other sources of information. The staff should inform the Commission how and when the updates will be made.
