**Subject:** Monticello - Extension of Audit for LAR to Revise TS 3.8.6, Battery Parameters, SR 3.8.6.6 (EPID L-2023-LLA-0160)  
**Date:** Thursday, March 7, 2024 4:44:00 PM

---

Hi Mike and Ron,

By letter dated February 14, 2024 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML24036A004), the NRC staff issued an audit plan to support the review of a license amendment request (ML23317A122) submitted by Northern States Power Company, a Minnesota Corporation, doing business as Xcel Energy, to revise Technical Specification 3.8.6, "Battery Parameters," Surveillance Requirement 3.8.6.6, acceptance criteria for 125-volt direct current batteries.

The purpose of this email is to inform you the NRC staff has determined additional time is needed to complete the audit. The NRC staff now expects to complete the audit of the requested calculations by March 29, 2024. This is a three-week extension from the audit end date communicated in the audit plan.

Please let me know if you have any questions.

Thank you,

Brent Ballard
