

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

May 22, 2024

MEMORANDUM TO: Chair Hanson  
Commissioner Wright  
Commissioner Caputo  
Commissioner Crowell

FROM: David L. Pelton, Director */RA/*  
Office of Enforcement

SUBJECT: CALENDAR YEAR 2023 ANNUAL REPORT OF THE U.S. NUCLEAR  
REGULATORY COMMISSION'S ENFORCEMENT PROGRAM

Enclosed is the 29th Annual Report of the U.S. Nuclear Regulatory Commission's (NRC's) Enforcement Program. The Office of Enforcement prepared this report in accordance with a Commission-approved recommendation from a 1995 Enforcement Program review.<sup>1</sup> The 2023 Annual Report contains information on enforcement activities that occurred during the 2023 calendar year. The report highlights escalated enforcement casework, noteworthy program focus areas, and ongoing activities that have had an impact on the agency's Enforcement Program. It also includes various supporting statistical tables and figures. The appendices to this report summarize cases involving publicly available escalated enforcement actions.

This report serves as an important agency communication tool for both internal and external stakeholders in recognition that the Enforcement Program is an integral, valuable component of the agency's regulatory programs. This report will be placed in the NRC's Public Document Room, as well as in the Enforcement Documents Collection on the Electronic Reading Room web page of the NRC's public website. Therefore, in accordance with the Commission's policy in effect during calendar year 2023, the report does not include sensitive security-related information, safeguards information, or classified information. The NRC is issuing a separate report containing summaries of the security-related enforcement actions and other information that is not publicly available.
