Ms. Kristina Banovac, Project Manager  
Division of Spent Fuel  
Office of Nuclear Material Safety and Safeguards

U.S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, DC 20555-0001

Docket No. 72-1040  
Certificate of Compliance (CoC) No. 1040

Subject: Submittal of RSI Supplemental Information for Revision to HI-STORM UMAX  
CoC Amendments 0, 1, and 2

Reference [1] "Submittal of RSI Responses for Revision to HI-STORM UMAX CoC  
Amendments 0, 1, and 2," to K. Banovac (NRC) from K. Manzione (Holtec), dated  
1/31/24

Dear Ms. Banovac:

Holtec previously submitted responses to RSIs (Reference [1]), including to a staff observation. In that response, Holtec indicated our intent to have further discussions with users of the HI-STORM UMAX system related to dose measurements. The user has indicated that the need to re-take dose measurements will not impact their voluntary acceptance of the revision, and therefore the provision has been deleted from the technical specifications. Updated tech spec pages for each revision are included as attachment 1.

If you have any questions, please contact me at (856)-797-0900 ext. 3951.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Manzione".

Kimberly Manzione  
Director of Licensing – NMSS Projects  
Holtec International
