SUBJECT: Discontinuation of NRC Review, Control No. 638902

Dear Timothy B. Burke:

This correspondence refers to the licensee's amendment request dated January 18, 2024, to U.S. Nuclear Regulatory Commission (NRC) License No. 21-26707-01MD to authorize the temporary storage of a cyclotron. We performed an acceptance review and determined that your request is lacking information for the NRC staff to begin its detailed safety evaluation of the license amendment in its entirety. Based on the information provided, we cannot make an independent assessment regarding the acceptability of the proposed license amendment in terms of regulatory requirements and the protection of public health, safety, and the environment.

This determination to not accept your license amendment request for review is made without prejudice; you may supplement your request and resubmit if you desire. If you decide to resubmit, please ensure that you have included all applicable information as outlined in NRC guidance, NUREG 1556, Volume 21, Revision 1. The guidance is available at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v21/index.html>.

If you have any questions, please contact me at 630-829-9875 or via email at [Magdalena.Gryglak@nrc.gov](mailto:Magdalena.Gryglak@nrc.gov)

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Magdalena R. Gryglak
