Hello,

I am seeking access to records under the Freedom of Information Act records to review amending license NO. SUB-1010 (Docket No. 40-8027) to authorize the treatment of raffinate in accordance with the application dated March 7 1973 for the Kerr-McGee corporation in Gore, Oklahoma. There was a letter dated May 3, 1973 from the NRC to Kerr-McGee, although I am unable to locate any of the above outlined information.

The document I would like to request is titled: **Application for Amendment Sequoyah Facility License SUB-1010 Docket 40-8027 is titled Uranium Hexafluoride to Uranium Tetrafluoride Processing Plant** dated January 2, 1985.

Thank you,
Jody Latimer
