Dear Sloan,

On your request to review, as it concerned our application to renew our NRC License No. 07-35115-01, the updated sections of NUREG 1556 Vol 7, Rev. 1, "Program-Specific Guidance About Academic, Research and Development, and Other Licenses of Limited Scope", 2018 guidance, such as:

- o Appendix C training for the RSO (formerly Appendix D)
- o Appendix I instrumentation (formerly Appendix M).
- o Appendix M surveys (formerly Appendix Q) surveys is now Appendix M.

we confirmed that after reviewing the above sections we have no changes in RSO, instrumentation and surveys, as compared to our previous 2013 license.

Sincerely,

Victor Tabeling, President
