Mr. Steckel,

We are all on the same team, trying to provide the best information possible to individuals in our industry. I am glad this worked out for all of us. NIRMA appreciates that you have accepted our request for the edits to RG 1.28.

I am also grateful to you and your team for recognizing my error of re-stating the incorrect title of TG21 in my request for a correction to it. My apologies for the mistake and thanks for you catching it and quietly correcting it. I shall strive to be more observant.

Sincerely,
Bruce Walters

Subject: NRC Regulatory Guide 1.28: "Quality Assurance Program Criteria (Design and Construction)"

Mr. Walters,

Thank you for informing us, through your communications with NRC Senior Records Manager Marianne Narick and your April 4, 2024, letter to Andrea Keim and me, of the need to update the titles of two of the NIRMA references in our 2023 update to RG 1.28, "Quality Assurance Program Criteria (Design and Construction)." The corrected titles for NIRMA, TG 16-2011 and NIRMA, TG 21-2011 can be seen in our ADAMS document management system at accession number ML23177A002.

Your willingness to step forward and inform us of a needed correction is greatly appreciated.

Jim Steckel
