SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2023-008)

Dear Frederic Bailly:

This refers to an investigation conducted by the U.S. Nuclear Regulatory Commission's (NRC's) Office of Investigations regarding activities at San Onofre Nuclear Generating Station. The Office of Investigations initiated the investigation to determine whether 1) a contractor willfully obtained unauthorized entry into containment buildings, and 2) contract security officers willfully failed to perform their duties by allowing a contractor into containment buildings who was not authorized to enter without escort.

Based on the evidence developed during the investigation, the concerns that 1) a contractor willfully obtained unauthorized entry into containment buildings, and 2) contract security officers willfully failed to perform their duties by allowing a contractor into containment buildings who was not authorized to enter without escort were not substantiated. The NRC plans no further action related to the willful aspects of this allegation and considers this investigation closed.

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, "Requests for Records."
