Subject: [External_Sender] RE: RE: [External] Perry License Renewal Scoping and Screening Breakout Question B.2.24 (Partial TRP-55) (EPID L-2023-RNW-0002)

Siva,

I have reviewed our draft revision to our Fuse Holders AMP basis document, designated LRPY-AMP-XI.E5. The draft revision incorporates the changes we proposed in our response the Scoping and Screening question associated with LRA Section B.2.24 (internally designated item 755 in our database). The changes to our XI.E5 basis document are consistent with those we provided via the eDocs portal on 3/19/24.

Thank You,

Mark J. Bensi

Subject: RE: RE: [External] Perry License Renewal Scoping and Screening Breakout Question B.2.24 (Partial TRP-55) (EPID L-2023-RNW-0002)

Any luck on this please? We need your confirmation to issue the audit input. Thank you.

Siva,

Email received. The necessary revision to the AMP basis document is currently in progress. Once I have approved the document revision, I will respond to this email confirming the changes made to the document are consistent with those proposed in response(s) to the applicable break-out questions. As this document serves as an input to our LRA, as appropriate, these changes will be incorporated into our application via the forthcoming supplement.

If you have any questions, please let me know.

Thank You,

Mark J. Bensi

Subject: [External] Perry License Renewal Scoping and Screening Breakout Question B.2.24 (Partial TRP-55) (EPID L-2023-RNW-0002)

For Breakout question B.2.24, "Fuse Holders Program," you provided changes to Perry's fuse holder aging management program (AMP) in the e-portal with revisions to Perry Program of sections 2.3.2, 2.4.2, 2.6.2 and 2.10.2 of LRPY-AMP-XI.E5, "Aging Management Program Evaluation Results," to maintain consistency with NUREG-1801, "Generic Aging Lessons Learned License Renewal (GALL) Report," section XI.E5, "Fuse Holders." Since the implementation of the fuse holders program with enhancement, provides reasonable assurance that the aging effects will be managed such that components within the scope of this program will continue to perform their intended functions consistent with the current licensing basis (CLB) for the period of extended operation (PEO), please confirm that you will incorporate the proposed changes to AMP basis document to ensure that the intended functions of the metallic clamps of fuse holders will be maintained consistent with the CLB through PEO. Thank you.
