P.O. Box 5469
Santa Fe, NM 87502

Re: 1st Quarter 2024 Report Pursuant to the Homestake Mining Company of California Grants Reclamation Project, Discharge Plan (DP-200)

Dear Ms. Maurer:

This 1st Quarter 2024 status report is presented as required in Homestake Mining Company of California's (Homestake's) Discharge Plan Condition 48 (DP-200 amendment 14-01 dated December 30, 2014). This condition requires a listing of the Homestake underground injection control (UIC) wells, their status and location. The attached spreadsheet contains wells already in the New Mexico Environment Department UIC database. Four monitoring wells were drilled in the 1st Quarter of 2024 as part of the dual domain investigation, but none are proposed to be utilized in the injection program and are not included in the attached list. No changes in existing well activity were made this quarter; therefore, none are highlighted in yellow.

Thank you for your time and attention on this matter. If you have any questions, please contact me via e-mail at bbingham@homestakeminingcoca.com or via phone at 505.290.8019.

Respectfully,

Brad R. Bingham

Brad R. Bingham
