Dear Dir. Warden:

Enclosed is an export license application, XSOU8865, from TN Americas LLC. It was accepted by the U.S. Nuclear Regulatory Commission (NRC) on June 7, 2024. The application requests the export of up to 8,500,000 kilograms of natural uranium in the form of uranium hexafluoride for enrichment services in Russia.

Please note that the application indicates the natural uranium has origins and/or obligations from several countries.

Before taking action on this request, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended. If you have any questions, please contact the Licensing Officer, Barry Miller (Barry.Miller@nrc.gov) and/or Charlese Smith (Charlese.Smith@nrc.gov), Licensing Assistant.

Sincerely,

6/11/2024

X Janelle B. Jessie
