Subject: Clarification on type of material device requested

Discussion: In the Application dated February 27, 2024 (ML24080A404), one of the device models requested did not match the SS&D, specifically the Industrial Nuclear Co., Inc. Model: IN-50 did not exist. After discussing the licensee's request, the inspector determined there was a typo in the model's name which should have been IR-50 instead of IN-50. However, the licensee stated they no longer use Industrial Nuclear Co., Inc. devices. It was determined that the device model from Industrial Nuclear Co., Inc. is not needed on the license.
