June 11, 2024

Nuclear Regulatory Commission
475 Allendale Road, Suite 102
King of Prussia, PA 19406-1415

Subject: Request for Amendment of License 45015325-01
McCallum Testing LLC
1808 Hayward Avenue, Chesapeake, Va. 23320

To Whom This May Concern:

McCallum Testing Laboratories would like to request an amendment to our license. We wish to purchase an Instrotek Model Xplorer 3500 nuclear gauge and dispose of one of our older Troxler 3411-B series. We still have several other Troxler 3411-B gauges, so we will need to maintain that on our license. The Xplorer 3500 is UN3332, Radioactive Material, Type A Package, Special Form 7, Non-Fissile or Fissile Excepted, Cs-137, 0.37GBq (10mCi) AM-241 1.48 GBq (40mCi) Radioactive Yellow II T.I. – 0.5. We have also submitted a request to the Virginia Department of Health Radioactive Materials Program and the North Carolina Department of Environmental Quality Division of Radiation Protection.

Should you need any additional information, please contact our office at your convenience.

Sincerely,
McCALLUM TESTING LABORATORIES

Charlotte Ebbert, P.G.
