Subject: Request additional information for NRC Materials License No. 21-32665-01
Date: Friday, April 26, 2024 11:00:00 AM

Dear Laura T. Speer-Smith,

This refers to the amendment request dated February 5, 2024 for NRC License No. 21-32665-01, received by the NRC on April 11, 2024. We reviewed the application in accordance with the licensing guidance in NUREG-1556, Volume 20, Revision 1. Based on the review, we will need the following.

1. In the letter dated January 8, 2024, you stated that the facility was decommissioned the same day and sources were to return to the manufacturer. We could not find the records that sources were returned and received by the manufacturer. Please provide a copy of the transferring receipt.
2. We could not find the radiation close out survey for the facility. In the application, there was a radiation survey; however, it was conducted on June 21, 2021 and for Ascension Macomb Oakland Hospital – Oakland Center. Provide an explanation for the discrepancy and a copy of the close out radiation survey for the licensee’s facility located 8244 Metro Pkwy, Bldg. B, Sterling Heights, Michigan. The survey should include the following information.
 - a. A diagram of your old facilities with survey and wipe test results keyed to specific locations. Please record your survey results using the appropriate units as described in 10 CFR 30.36 (j) (2) (i) and indicate net count or gross count.
 - b. The name of the person performing the survey.
 - c. The date the survey was performed.
 - d. The instrument(s) used for exposure rate measurements and for analysis of the wipes (manufacturer, model, serial, etc.)
 - e. Background readings.
 - f. The date that the survey instrument was last calibrated.
 - g. Confirm that all radioactive waste has been decayed to background radiation or has been transferred to a radioactive waste broker for disposal.

To continue the review of your application, we request that you submit your response under a dated and signed cover letter by May 24, 2024. In the cover letter, please reference the license number, docket number and Mail Control No. 640379. We will assume that you do not wish to further pursue this licensing action if we do not receive a reply within the specified timeframe noted above.

If you have questions, require additional time to respond, or require clarification on any of the

information stated above, please contact me at 630-829-9623 or reply to this email.

In accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this correspondence will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

Best regards,
