

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

June 20, 2024

MEMORANDUM TO: Gerond A. George, Chief  
Licensing Projects Branch  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

FROM: James Delosreyes, Project Manager */RA/*  
Licensing Projects Branch  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF THE MAY 20, 2024, ELECTRIC POWER RESEARCH  
POWER INSTITUTE PLAN FOR AN INDUSTRY-WIDE APPROACH  
TO PERFORMANCE MONITORING PRE-SUBMITTAL PUBLIC  
MEETING

On May 20, 2024, the U.S. Nuclear Regulatory Commission (NRC) staff and Electric Power Research Power Institute (EPRI) representatives held a hybrid public meeting. The purpose of this meeting was to discuss the future Topical Report (TR) submittal regarding performance monitoring for optimization of select examination requirements. The meeting notice and presentation slides can be found in the Agencywide Documents Access and Management System (ADAMS) under Accession Nos. ML24128A050 and ML24137A265, respectively.

EPRI representatives presented the technical bases in support of deferral of steam generator and pressurizer component exams up to 30 years, which is beyond the current requirements of 10 years as prescribed by American Society of Mechanical Engineers (ASME) Code, Section XI. Depending on the duration of the deferral period, eligible plants could also refrain from the requirements for performance monitoring and otherwise require fewer exams as determined by NRC analysis.

EPRI also presented historical and projected data on status of relief requests for alternative inspections for the commercial fleet showing that plants were still exceeding the minimum inspection requirements regardless of relief. The meeting finished with an open discussion between NRC and EPRI regarding the path forward, with potentially more public meetings at an undetermined time.

CONTACTS: Lois M. James, NRR  
301-415-3306

James Delosreyes, NRR  
301-415-4141

No public comments were received during the public comment period.

No regulatory decisions were made in the meeting.
