Dean Thomas  
President and Chief Executive Officer  
University Healthcare-Berkeley Medical Center  
2500 Hospital Drive  
Martinsburg, West Virginia 25401

**SUBJECT: SUSPENSION OF REVIEW OF AMENDMENT REQUEST DATED MARCH 8, 2024 FOR UNIVERSITY HEALTHCARE-BERKELEY MEDICAL CENTER, NRC LICENSE NO. 47-15501-01, MAIL CONTROL NO. 640062**

Dear Dean Thomas:

We have reviewed your request to amend your U.S. Nuclear Regulatory Commission (NRC) License No. 47-15501-01. You have requested approval for a Yttrium-90 microspheres program permitted by 10 CFR 35.1000. Your amendment request is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML24081A250.

Based on the review, our office determined that additional information was needed from you to further evaluate your amendment request. Accordingly, we prepared and sent you a written request for additional information via electronic mail dated May 14, 2024 (ML24135A237). A response was requested by June 10, 2024. To date, that information has not been provided to our office. It is our understanding that you need additional time to gather, prepare, and submit the requested information. Accordingly, as discussed via email, we have suspended review of your application pending receipt of the additional requested information. Due to the delay in receiving the additional requested information that is necessary for review of your application, the NRC cannot project when it will make a determination on the application request. Once a complete response is received, the NRC will provide an updated date for the NRC to complete its review. If an adequate response is not received by June 13, 2025, the NRC will administratively close or deny the request, as appropriate. If we do close the request, you may submit a new request and can refer to Mail Control No. 640062 for the documentation you have already submitted.

In accordance with 10 CFR 2.390 of NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (610) 337-5006 or via email at [janice.nguyen@nrc.gov](mailto:janice.nguyen@nrc.gov).

D. Thomas
