Brett Nickell, Radiation Safety Officer
Licensee Name : Lockheed Martin Corporation
Mail Control Number: 641067
Docket Number : 3030597
License Number : 09-23013-02

Mr. Nickell,

This request is regarding your license amendment request dated May 28, 2024. With your submittal of the renewal request, the license expiration date will be extended to a fifteen-year frequency. This action is not being processed as a license renewal of the license but an extension of the renewal frequency. We understand that you have also been appointed as radiation safety officer for the license. In order to accept the application you will need to provide attestation from your superiors regarding your appointment.

Please provide attestation (signed) by a senior license official acknowledging that you have been appointed to serve as the radiation safety officer (RSO) for the license (Lockheed Martin Corp. License Number : 09-23013-02) and confirm that the RSO has independent authority to stop unsafe operations and that you are duly authorized to act for and on behalf of the licensee in matters regarding the license.

Thank you.

Regards,
Scott Wilson
