Subject: [External_Sender] don't renew Monticello's license

To whom it may concern,

Fukushima is a huge disaster that is still being cleaned up, well not really, they are dumping all the radioactive wastewater into the ocean where the Tritium will sink to the deep sea and we don't need to worry about it anymore, I don't know IF I believe that is true, I think effects will be uncovered that we have no idea of the scale at this point.

Regardless of Fukushima the Monticello reactor has the same design and could melt down just as easily as Fukushima, please do NOT extend the license for another 20 years, it's time has come, Monticello nuclear power plant should either be shut down or fitted with newer, less dangerous nuclear reactors.

Sincerely,

Connie Lindgren
