Dear NRC RE: Monticello Reactor Jessica Umana,

My car is 14 years old. We have taken good care of it but it is definitely showing its age and is getting worrisome to drive. We hope to be able to replace it soon with a clean, modern EV. The same goes for an old nuclear power plant. Who would drive an 80 year old car that is leaking radioactive tritium all over the place? Decommission Monticello and replace it with a clean, renewable modern wind/solar farm!

Sincerely,
Charlotte Eastin
