**SUBJECT: NUCLEAR FUEL SERVICES, INC – INSPECTION SCHEDULE FOR CALENDAR
YEAR 2025**

Dear Ronald Dailey:

Enclosed is the schedule of inspections to be performed by the U.S. Nuclear Regulatory Commission (NRC) inspectors at the Nuclear Fuel Services facility in calendar year 2025. The inspection schedule is provided in advance to minimize the resource impact on your staff and allow for the resolution of any scheduling conflicts and personnel availability issues, well in advance of inspector arrival onsite.

Please note that any regional initiative, reactive inspections, or additional inspections needed to support new processes or technologies are not included in the schedule but will be added as detailed schedule information becomes available. If circumstances arise which cause the NRC inspectors to change the dates of the planned inspections, we will contact you to discuss the change as early as possible. Please contact Nick Peterka at (404) 997-4556 with any questions or concerns you may have regarding this letter or the inspection schedule.

This letter and its enclosure will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html>, and at the NRC Public Document Room, in accordance with Title 10 of the Code of Federal Regulations 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Sincerely,

A handwritten signature in black ink, appearing to read "REW", written over a horizontal line.

Signed by Williams, Robert
on 06/25/24

Robert E. Williams, Jr., Chief
Projects Branch 1
Division of Fuel Facility Inspection

Docket No. 07000143
