SUBJECT: U.S. NUCLEAR REGULATORY COMMISSION SUMMARY OF THE
MAY 1, 2024, PREAPPLICATION PUBLIC MEETING WITH SMR,
LLC (A HOLTEC INTERNATIONAL COMPANY) TO DISCUSS THE
PENDING RISK DETERMINATION METHODOLOGY TOPICAL
REPORT

The U.S. Nuclear Regulatory Commission (NRC) held an observation public meeting on May 1, 2024, with SMR, LLC (SMR), a Holtec International Company (Holtec), to discuss the pending Risk Significance Determination Methodology Topical Report.¹ SMR (Holtec) provided presentation slides to support the discussion during the public meeting.² This meeting summary satisfies the SMR (Holtec) request for review and feedback on its preapplication meeting materials.

This virtual observation preapplication meeting had attendees from SMR (Holtec) and their contractors, NRC staff, and members of the public.

Preapplication engagements, including this meeting, provide an opportunity for the NRC staff to engage in early discussions with a prospective applicant to offer licensing guidance and to identify potential licensing issues early in the licensing process. No decisions or commitments were made during the preapplication meeting.
