**Freedom of Information Act (FOIA) and Privacy Act (PA) Requests and Appeals Received
During the Period of June 17 – June 21, as submitted by requester**

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2024-000183	Aamot, Colin		I respectfully request the following: Records sufficient to identify all employees who entered into a position at the agency as a Political Appointee since January 1, 2024, to the date this records request is processed and the title or position of each employee (to the extent that individuals have held multiple positions during this time period, identify each title or position and the time period it was held). Records sufficient to identify all career employees who, between January 1, 2024, and the date this records request is processed, have been detailed to 1) A position to be filled by a Political Appointee, or 2) A new position through coordination or consultation with either the White House Liaison or Presidential Personnel Office; the title or position of each employee while on detail; and each employee's originating agency or component, and prior title. For each individual identified in response to Requests 1 and 2 provide: 1. The resume provided by the individual to the agency in connection with determining the appropriate salary for the individual, or if that is not available, a recent resume contained within the agency's records. I no objection to the redaction of employee's contact information, such as email, address, phone numbers etc.; however, prior employment, education, and descriptions of such experiences are not exempt and should be produced. 2. Any waivers issued to the individual pursuant to 18 U.S.C. 208(b). 3. Any authorizations for the individual issued pursuant to 5 C.F.R. 2635.502. 4. Any Ethics Pledge waivers, issued pursuant to Section 3 of Executive Order 13989 and Office Government Ethics Legal Advisory 21-04, received by the individual. 5. Any ethics agreement executed by the individual; any Certification of Ethics	06/17/2024

Tracking Number	Requester's Name	Requester's Organization	Request Description	Received Date
FOIA-2024-000183 (continued)			Agreement Compliance; and any records relating to any violation by an individual of his or her ethics agreement. 6. Records reflecting any recusal determination made or issued for the individual. 7. Copies of any SF-50 forms for the individual reflecting any change in position, title, or salary, including when the employee starts or leaves a position 8. Completed Ethics Pledge for each individual.	
FOIA-2024-000184	Aamot, Colin		I respectfully request the following: Documents sufficient to to account for all GLOMAR FOIA responses issued by the agency from 1 January, 2024 to present, along with a copy of the original FOIA request the GLOMAR was issued in response to. Search Instructions: Please limit all searches in response to this Request from January 1, 2024, to the present. Please include the full email chain and attachments relevant to any responsive documents to provide further context.	06/17/2024
FOIA-2024-000185	Wilson, Ed	-	I am requesting a copy of an unclassified lithograph of a photo from the Gemini XI Mission of a "strange object." Please search for the image itself, labelled "Strange object as seen during the Gemini XI flight." This image is formatted in the style of the Gemini XI Gemini Program Mission Report of Oct. 1966 which was marked as MSC-G-R-66-8 and declassified in April, 1975. In fact, the image's format, layout, and type font are the same as the ones for the published images in this official Gemini XI mission report.	06/17/2024
FOIA-2024-000186	Keys, Clay	-	I request a printed paper copy of the published FOIA and agency response for [NRC]-2022-000195 and all 2018 NRC newsletters of "The Researcher"	06/18/2024
FOIA-2024-000187	Rhodes, Courtnee	DISA Global Solutions, Inc.	I'm trying to verify an Senior Reactor Operator license for [a named individual], whose license number is [redacted], including the date of issue and expiration date, if applicable.:	06/21/2024

ASME Code Case N-752-1 Risk-informed Categorization and Treatment for Repair/Replacement Activities in Class 2 and 3 Systems, Section XI, Division 1

On June 12, 2024, staff authorized a risk-informed alternative for the use of American Society of Mechanical Engineers (ASME) Code Case N-752-1, "Risk-informed Categorization and Treatment for Repair/Replacement Activities in Class 2 and 3 Systems, Section XI, Division 1" in lieu of certain requirements in ASME Section XI (Agencywide Documents Access and Management System (ADAMS) Accession No. [ML24149A286](#)) for the NextEra fleet. The code case provides a risk-informed categorization and treatment for certain ASME Class 2 and 3 items. Code Case N-752-1 has not been approved by the NRC staff or incorporated by reference for generic use. Therefore, the U.S. Nuclear Regulatory Commission (NRC) staff reviewed the licensee's request as plant-specific request. This is the second fleet request approved by the NRC. On May 30, 2024, staff authorized a similar request for the Entergy Fleet ([ML24060A219](#)).

Holtec Decommissioning International License Amendment Request

On June 18, 2024, staff issued its letter accepting for review Holtec Decommissioning International, LLC's (HDI's) license amendment request (LAR) to approve the use of the Framatome Inc. Topical Report EMF-2310, Revision 1, Supplement 2, Revision 0, "SRP Chapter 15 Non-LOCA Methodology for Pressurized Water Reactors," for application of the Biasi Critical Heat Flux correlation in the Post-Scram Main Steam Line Break analysis at the Palisades Nuclear Plant. This LAR is the final part of several licensing actions HDI has requested to enable the restart of the Palisades Nuclear Plant and is the final licensing input needed to initiate the staff's environmental review.

NextEra/Florida Power & Light Withdrawal Letter

On June 19, 2024, NextEra/Florida Power & Light submitted a letter requesting withdrawal of the Turkey Point digital instrumentation and controls license amendment request. This review has been on "hold" since June 2023 at the licensee's request ([ML23188A124](#)). The amendment request was originally submitted by the licensee on July 30, 2022. The licensee is withdrawing the request because it has decided not to proceed with the digital modification at Turkey Point at this time. The licensee has not shared the reason it has decided not to proceed with the digital modification.

Public Meeting with TRISO-X, LLC

On June 17, 2024, the U.S. Nuclear Regulatory Commission (NRC) staff held a public meeting with TRISO-X, LLC to discuss the status of the review for the new 10 CFR Part 70 fuel fabrication facility license application. The staff presented the review progress to date, including resolution of 6 of the 20 Requests for Additional Information (and a path to resolution on 12 more) that need to be resolved to address the High Impact Technical Items. Staff discussed that the review schedule is likely to be impacted by: (1) the time needed to resolve these issues, (2) the applicant's delayed initial submittal of the electrical and instrumentation and control portion of the application (6 months late), and (3) TRISO-X's plans to submit a revised license application, to reflect a change in their uranium feedstock, in December 2024. Staff plans to issue a revised review schedule and update the NRC dashboard for TRISO-X (<https://www.nrc.gov/info-finder/fc/triso-x/project-status.html>) in the summer of 2024.
