NRC Docket No. 030-02278

Mr. Bill Lin
Project Manager
U.S. Nuclear Regulatory Commission, Region III
Decommissioning, Reactor, and ISFSI HP Branch
Division of Radiological Safety and Security
2443 Warrenville Road, Suite 210
Lisle, IL 60532

Re: NRC RESPONSE FOR CURATORS OF THE UNIVERSITY OF MISSOURI
PICKARD HALL LETTER DATED FEBRUARY 5, 2024 – LICENSE NO: 24-00513-32

Dear Mr. Lin:

This document was submitted via email on June 14, 2024, and First Class Mail on June 17, 2024.

By letter dated April 16, 2024, and received on April 23, 2024, you provided the University of Missouri with 2 requests for additional information (“RAIs”) and requested a response within 60 days of receipt.

Attached please find the responses to the 2 RAIs.

Once the NRC Staff has completed issuing RAIs, MU has responded to those RAIs, and the NRC Staff has agreed that the responses are sufficient, within 30 days the University of Missouri will submit a revised Decommissioning Plan incorporating the changes agreed to in the RAI responses.

Sincerely,

Cade J. Register, CHP
Radiation Safety Officer
