Subject: [External_Sender] RE: [External] draft environmental assessment for the Three Mile Island Unit 2
Date: Friday, June 21, 2024 7:59:38 AM
Attachments:

Good Afternoon Jean,

The Pennsylvania Department of Environmental Protection's Bureau of Radiation Protection has completed its review of the Draft for Review, *Environmental Assessment for Specific Decommissioning Activities at Three Mile Island, Unit 2 in Dauphin County, Pennsylvania*, dated May 2024. We concur with the NRC that the proposed license amendment would not significantly affect the quality of the human environment as stated in the draft assessment. And thus, we concur with the NRC's Finding Of No Significant Impact determination.

If there are any further actions needed by NRC from us at this time, please let me know.

Regards,
Bryan

Hello Bryan

Attached please find a copy of the U.S. Nuclear Regulatory Commission's (NRC's) draft environmental assessment (EA) in support of the NRC staff's review of the TMI-2 Solutions license amendment request for the Three Mile Island Unit 2 (TMI-2). The draft EA evaluates the environmental impacts from specific decommissioning activities. The draft was

also sent to Pennsylvania Department of Environmental Protection (DEP) email (ra-epbrpenvpert@pa.gov) found on DEP website. If you are aware of anyone else in your office who should receive a copy of the draft EA kindly let me know or forward it on to them.

The NRC is requesting the Pennsylvania Department of Environmental Protection review and comment on the draft EA. Please submit any comments you may have within 30 days of the receipt of this email by responding to this email. Your comments will be addressed in the final EA and finding of no significant impact (FONSI), which will be noticed in the *Federal Register*.

The draft EA is also being issued for a 30 day public comment period. The *Federal Register* notice announcing the public comment period should be published this week.

If you have any questions, please contact me via reply to this e-mail or by telephone at 301-415-0867.

Thank you in advance for your review,

Jean Trefethen

Environmental Project Manager

U.S. Nuclear Regulatory Commission
