Subject: Transmittal of the “eVinci™ Microreactor Westinghouse TRISO Fuel Design Methodology Topical Report NRC Pre-submittal Meeting” Presentation

I am pleased to submit on behalf of Westinghouse Electric Company the enclosed Topical Report pre-submittal meeting presentation. This presentation will be used to support the planned July 15, 2024 meeting between Westinghouse and NRC. The purpose of the July 15th meeting and the presentation is to provide an overview of the Westinghouse TRISO Fuel Design Methodology Topical Report, for which Westinghouse plans to seek NRC approval. The submittal schedule for this Topical Report will be discussed during the July 15th pre-submittal meeting.

The presentation provided herein is for the public, non-proprietary portion of the pre-submittal meeting. No slides were prepared or submitted to support the closed, proprietary portion of the pre-submittal meeting.

A handwritten signature in cursive script that reads 'Anthony J. Schoedel'.

Anthony J. Schoedel
