SUBJECT: 2024 ANNUAL SURETY UPDATE FOR THE UNITED NUCLEAR CORPORATION MINING AND MILLING, DIVISION OF UNITED NUCLEAR CORPORATION, AMENDMENT NUMBER 60 TO SOURCE MATERIALS LICENSE SUA-1475, DOCKET NUMBER 40-8907

Dear Lance Hauer:

Enclosed, please find the U.S. Nuclear Regulatory Commission (NRC) Technical Evaluation Report (TER) for the United Nuclear Corporation (UNC) 2024 surety update for the UNC Church Rock Site in Gallup, NM. Also enclosed is Amendment 60 to Source Materials License No. SUA-1475, which revises the amount of the surety to reflect the current cost estimate for decommissioning and reclamation of the UNC Church Rock site.

By letter dated, March 31, 2024, United Nuclear Corporation [UNC], (Agencywide Documents Access and Management System (ADAMS) Accession No. [ML24100A819](#)), submitted its annual financial surety update for the Church Rock site, as required by Title 10 of the *Code of Federal Regulations* (10 CFR) Part 40, Appendix A, "Criteria Relating to the Operation of Uranium Mills and the Disposition of Tailings or Wastes Produced by the Extraction or Concentration of Source Material From Ores Processed Primarily for Their Source Material Content," Criteria 9 and 10, and License Condition (LC) 25 of UNC's source materials license. The letter was supplemented by an e-mail from UNC (ADAMS Accession No. [ML24156A193](#)), May 30, 2024, clarifying a typographical error in the original letter.

The NRC has noted that Criterion 9 of 10 CFR Part 40, Appendix A requires, in part, that the amount of surety liability should be adjusted to recognize any increase or decreases resulting from inflation, changes in engineering plans, activities performed, and any other conditions affecting costs.

UNC's submittal (UNC, 2024) includes a request to amend its license to increase its surety amount for its Church Rock mill site from \$27,051,026 (in 2023\$) to \$27,903,992 based on a 19.14 percent increase in the Consumer Price Index for all urban consumers (CPI-U) from the end of December 2020 (260.474) through the end of February 2024 (310.326). Staff confirmed the accuracy of the December 2020 and February 2024 CPI-U by consulting the U.S. Bureau of Labor and Statistics reference, entitled, "Historical Consumer Price Index for All Urban Consumers (CPI-U): U.S. city average, all items, by month" at <https://www.bls.gov/cpi/home.htm>

The NRC staff performed the following calculations to confirm the licensee's inflationary factor is reasonable:

$$310.326 - 260.474 = 49.852$$

$$49.852 / 260.474 = .1914$$

$$.1914 \times 100 = 19.14$$

$$1.1914 \times \$23,421,384 = \$27,903,992$$

UNC previously submitted an NRC approved surety bond and standby trust agreement to demonstrate compliance with 10 CFR Part 40, Appendix A, Criteria 9 and 10. Within 30 days of approval of the 2024 surety amount, UNC should submit an update to its financial assurance instruments to cover the increased surety amount. The 2024 surety amount is \$27,903,992.

Based on the NRC staff's review (TER) as noted above, Source Materials License SUA-1475 is amended by revising LC 25 to indicate that UNC's surety shall be continuously maintained in an amount no less than \$27,903,992 until a replacement is authorized by the NRC. The modification to LC 25 is provided as Amendment No. 60 to Source Materials License No. SUA-1471 (enclosed). An environmental review was not performed since this action is categorically excluded under 10 CFR Section 51.22(c)(10), "Criterion for categorical exclusion; identification of licensing and regulatory actions eligible for categorical exclusion or otherwise not requiring environmental review."

In accordance with 10 CFR Section 2.390, "Public inspections, exemptions, requests for withholding," of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC website at <https://www.nrc.gov/reading-rm/adams.html>.

If you have any questions regarding this letter or the enclosure, please contact James Smith at (301) 415-6103 or by e-mail to James.Smith@nrc.gov.

Sincerely,

Signed by VonTill, Randolph
