RE: Amendment Requests (Lic. No. 06-00854-03)

Dear Medical Licensing Staff,

Saint Francis Hospital and Medical Center (Saint Francis), Hartford, CT, requests 94 Woodland Street, Hartford, CT 06105 be added to Lic. No. 06-00854-03 Item 10. This request does not reflect a new usage area or a change in any prior commitments to the NRC for Saint Francis Hospital and is in a contiguous building with the current address of 114 Woodland Street, Hartford, CT. The purpose of the request to add this address to the license is to allow delivery services companies to deliver Class 7 packages directly to that address. Specifically, delivery services companies will currently only delivery Iridium seeds for our HDR unit to the loading dock at 114 Woodland Street. For security purposes, we would prefer to have the seeds delivered directly to the Cancer Center where the HDR unit is located. The delivery services companies will not do without the specific address of 94 Woodland Street on the license. We appreciate your assistance with this matter.

If you have any questions or require additional information, please do not hesitate to contact us.

Sincerely,

Gregory S. Hisel, CHP
