SUBJECT: RESPONSE TO NRC INSPECTION REPORT 030-36055/2023-001 AND NOTICE OF VIOLATION

Dear Charles Lanman:

On June 7, 2024, the U.S. Nuclear Regulatory Commission (NRC) cited TRUGLO, Inc., for two violations of NRC requirements. The violations involved: the failure to submit a transfer report to the NRC for calendar year 2022 by the due date, the failure to include all required information in transfer reports for calendar years 2018, 2019, 2020, and 2021, and the distribution of material (gun sights and bow sights containing hydrogen-3) from a location not authorized on the NRC license. NRC Inspection Report 030-36055/2023-001 and Notice of Violation (Notice) required you to reply in writing in 30 days (NRC Agencywide Documents Access and Management System (ADAMS) Accession No. ML24158A623). In a letter dated July 3, 2024, you provided your reply to the Notice (ADAMS ML24200A011).

After reviewing the information provided in your reply to the Notice, we have concluded that your completed and proposed corrective actions appear to adequately address the regulatory non-compliances described in the Notice. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Lizette Roldán-Otero".
