September 27, 2024

Christopher D. Wilson
Director, License Renewal
Constellation Energy Generation, LLC
200 Exelon Way
Kennett Square, PA 19348

SUBJECT: ISSUANCE OF ENVIRONMENTAL SCOPING SUMMARY REPORT
ASSOCIATED WITH THE U.S. NUCLEAR REGULATORY COMMISSION
STAFF'S REVIEW OF CLINTON POWER STATION, UNIT 1, LICENSE
RENEWAL APPLICATION (EPID NUMBER: L-2024-LNE-0000) (DOCKET
NUMBER: 50-461)

Dear Christopher D. Wilson:

The U.S. Nuclear Regulatory Commission (NRC) staff conducted the environmental scoping process and solicited public comments pursuant to Section 51.29 of Title 10 of the *Code of Federal Regulations* (10 CFR) from April 29, 2024, to May 29, 2024. This process helped determine the scope of the staff's environmental review of the application for license renewal of the renewed facility operating licenses for Clinton Power Station, Unit 1. The scoping process is the first step in the development of the Clinton specific supplement to NUREG-1437, Generic Environmental Impact Statement for License Renewal of Nuclear Plants.

At the conclusion of the scoping process, the staff prepared the enclosed environmental scoping summary report identifying comments received during the scoping period. In accordance with 10 CFR 51.29(b), the NRC staff will send a copy of the scoping summary report to each participant in the scoping process.

If you have any questions concerning the staff's environmental review for this license renewal application, please contact Ashley Waldron by telephone at 301-415-7317 via email at Ashley.Waldron@nrc.gov.

Sincerely,

Signed by Koenick, Stephen
on 09/27/24

Stephen S. Koenick, Chief
Environmental Project Manager Branch 1
Division of Rulemaking, Environment,
and Financial Support
Office of Nuclear Material Safety
and Safeguards
