Subject: FYI - Acceptance Review - LAR and Exemption Request to Remove Tier 1 and Tier 2* Requirements for Vogtle 3 and 4

Ryan and Ken,

By letter dated July 25, 2024 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML24207A108), Southern Nuclear Operating Company (SNC, the licensee) submitted an exemption request and a license amendment request (LAR) for Vogtle Electric Generating Plant (Vogtle), Units 3 and 4. The requested LAR proposes to remove requirements related to the plant-specific design control document information designated as Tier 1 and Tier 2*, and the requested exemption proposes to exempt Vogtle, Units 3 and 4, from 10 CFR Part 52, Appendix D, Tier 1 and Tier 2* requirements.

The proposed change would effectively convert the applicable Tier 1 information and Tier 2* information to Tier 2 information for Vogtle, Units 3 and 4, and revise the Updated Final Safety Analysis Report (UFSAR) accordingly.

Due to the complexity of the LAR and exemption request, the U.S. Nuclear Regulatory Commission (NRC) staff has extended the acceptance review period from 25 working days to 52 working days.

Thanks.
John
