4220 Varsity Dr
Suite C
Ann Arbor, MI 48108

SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR TECHNICAL ALTERNATIVES, NRC LICENSE NO. 21-35058-01

Dear David Westfall:

In letter dated April 3, 2024, Technical Alternatives notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-35058-01. Your letter is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML24103A195.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (CFR) Section 51.22(c).

The NRC staff has reviewed the documents you provide regarding disposition of radioactive materials under your possession. Based on its review, the NRC staff has concluded that all licensable radioactive material has been removed from the facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions, no further remediation or actions are required with respect to NRC-regulated material. Your facilities are suitable for unrestricted use, and NRC Materials License No. 21-35058-01 is hereby terminated. (See Enclosure for the amended license stating that the license is terminated.)

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

If you have questions, please contact Jennifer Dalzell at 630-829-9607 or Jennifer.Dalzell@nrc.gov.

Sincerely,

Jennifer L. Dalzell
Technical Assistant
Division of Radiological Safety and Security

Docket No.: 030-38635
License No.: 21-35058-01
Control No.: 640374

Enclosure: Amendment No. 1 to NRC License No. 21-35058-01 Stating that the License is Terminated
