CONDITIONS

10. The following industrial device containing byproduct material designed and manufactured in accordance with NRC registration certificate No. NR-1373-D-101-E, for the purpose of detecting contraband hidden in compartments, may be distributed according to this license provided the amount of Ba-133 contained in the device does not exceed the amount specified in the following table:

Device Model Maximum	Quantity per Device
Xpose Contraband Detector	10 microcuries (0.37 MBq)

11. This license does not authorize possession or use of licensed material.
12. The licensee is authorized to distribute only from its facility located at 3110 Scott St., Vista, California.
13. Except as specifically provided otherwise by this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
