RE: Nuclear Regulatory Commission (NRC), Clinch River Nuclear Project Exemption Request for Excavation Support Activities, Project#: SHPO0005399, Oak Ridge, Roane County, TN

Dear Beau Goldstein:

In response to your request, we have reviewed the documents submitted regarding your proposed undertaking. Our review of and comment on your proposed undertaking are among the requirements of Section 106 of the National Historic Preservation Act. This Act requires federal agencies or applicants for federal assistance to consult with the appropriate State Historic Preservation Office before they carry out their proposed undertakings. The Advisory Council on Historic Preservation has codified procedures for carrying out Section 106 review in 36 CFR 800 (Federal Register, December 12, 2000, 77698-77739).

Considering available information, we find that there are multiple potentially eligible sites within the overall APE. Since the current documents do not clarify where any roads or spoil areas for the pit excavation would be located, we will await review of the additional environmental documents. Provide your Project # when submitting additional materials related to this undertaking. Please direct questions and comments to Kelley Reid, who drafted this response, at [Kelley.Reid@tn.gov](mailto:Kelley.Reid@tn.gov), +16157701099. We appreciate your cooperation.

Sincerely,

E. Patrick McIntyre, Jr.  
Executive Director and  
State Historic Preservation Officer
