Re: Change of physical address

Dear Mr. Pfingten

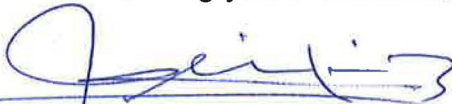

As per our conversation, I hereby explain the situation of the suite number. Apparently when the building was constructed, the person that was ordered to install the labels that were to be put above the doors to identify the offices, put #109 instead of # 108. Nobody inspected nor supervised the installation of the labels.

We have an option to purchase the property and when the legal documents were sent to the bank, for the appraisal. they called indicating the correct number.

The locale is the same, with the same square footage, entrance, etc. that has been the Pet-Ct for many years and the only change that must be made is the number of the suite, from # 109 to # 108.

Enclosed please find a copy of the certificate of accreditation of the office.
If you need any other information, please contact me via email or 787-370-2960

Thanking you in advance.

Gerardo Márquez Veglio
President

CARDIOVASCULAR RADIOLOGY INSTITUTE, INC.

TORRE MEDICAL SAN CRISTOBAL, SUITE 109
