The incoming cover letter is not publicly available due to the sensitive security-related information contained therein. The enclosure to the cover letter is also not publicly available because of its classified designation.

Please reference this EPID number and Docket Number 70-27 in any future correspondence associated with this request.

Please note that the NRC staff’s technical review of the submittal may identify issues that require additional information. Based on our preliminary evaluation and projection of current review schedules, we anticipate completing our formal review by December 30, 2024. This date could change depending on the findings of our technical review, urgent assignments, or other factors. We will promptly communicate any significant changes to this schedule. In addition, the NRC staff estimates that completing the review of the submittal will require up to 60 staff hours, which corresponds to about \$19,020.00 (\$317.00/hour).

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC’s “Agency Rules of Practice and Procedure,” a copy of this letter will be available for public inspection in the NRC Public Document Room (PDR) or electronically from the Publicly Available Records System component of the NRC’s Agencywide Documents Access and Management System (ADAMS).
