Date: Tuesday, April 4, 2023 9:26:50 AM

Sorry for delay. The last three weeks has been hellish, getting my wife into a memory care facility and then working on her settling in, which she adamantly resists. Very unhappy (me too). I am now registering my sources as orphan sources, and Russ Meyers figures he can get me a 30% discount for disposal in the (most likely) case that is necessary.

Good Afternoon,

I am following-up from my recent inspection of your radioactive materials, which have been in storage since 2015. During the March 21, 2023 inspection, we discussed efforts to properly dispose of your radioactive materials. I requested an update by today and unfortunately have not received any information from you. Please provide an update on your efforts to coordinate disposal.

Thank you
