Department of Public  
Health & Environment

August 14, 2024

Theresa V. Clark, Deputy Director  
Division of Materials Safety, Security, State,  
and Tribal Programs (MSST)  
Office of Nuclear Material Safety  
and Safeguards  
U.S. Nuclear Regulatory Commission  
T8-E18  
Washington, D.C. 20555-0001

Dear Ms. Clark:

Enclosed is a copy of the final revision to the Colorado Rules and Regulations Pertaining to Radiation Control, 6 CCR 1007-1, Part 10 (Radiation Control - Notices, instructions, and reports to workers: inspections) which became effective on August 14, 2024. These changes improve the consistency in the language between Colorado rule and 10 CFR Part 19 and are not associated with any NRC RATS identification number or NRC comments. The draft regulation as presented to and adopted by the Colorado Board of Health on June 20, 2024 is also included for reference. Colorado is required to periodically review its regulations for continued applicability, effectiveness, efficiency and consistency, and the proposed minor changes are a result of that review.

We believe that final adoption of these revisions continues to satisfy the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, for Colorado's equivalent regulations.

We thank you for your consideration. If you have any questions regarding this final regulation, please feel free to contact me at 303-692-3371 or James Jarvis of my staff at (303) 692-3454 or james.jarvis@state.co.us.

Sincerely,

Jim Grice, Radiation Program Manager  
Hazardous Materials & Waste Management Division

Enclosures:

6 CCR 1007-1, Part 10 (effective August 14, 2024)  
6 CCR 1007-1, Part 10 (Draft 1 dated 03/26/2024) as presented to and adopted by the Colorado Board of Health
