Subject: Request for Amendment to NRC License No. 21-35571-01 - Removal of Location of Use

Good Afternoon,

I am writing to request an amendment to our NRC License No. 21-35571-01 issued to Advanced Heart and Vascular Care. We are requesting the removal of the following location of use from our license:

Location to be Removed:

1414 Stewart Rd
Monroe, MI 48162

Reason for Removal:

Services at this site have been discontinued with all activities relocated to the recently approved location at 465 N. Telegraph Rd., Monroe MI 48162.

We confirm that all licensed materials have been appropriately removed from the location, and the site has been decommissioned in accordance with NRC guidelines. There are no residual radioactive materials remaining at the site that would require further regulatory control.

We kindly request that you process this amendment request at your earliest convenience. Should you require any additional information or have any questions, please do not hesitate to contact my office at (734) 652-1358.

Thank you for your attention to this matter.

Sincerely,

Subject: [External_Sender] Request for Amendment to remove location of use.

Hello Mr. Bryant:

Thank you for the amendment to NRC License No. 21-35571-01 that you previously sent by email on July 11, 2024.

I am now requesting another amendment to this license to have the following location removed as a site of use:

1414 Stewart Rd., Monroe MI 48162

I have attached the floor plan for that site and have included both the survey measurements and surface wipe test results that I conducted on Monday, August 19 2024. All equipment had been removed and re-located to the new site at 465 N. Telegraph Rd., Monroe, Michigan, 48162 prior to these measurements being taken. Thank you for your assistance in this matter
