Robert Hawthorne, Materials Testing Manager,
Atlas Technical Consultants
Burlington, NJ

I have been on travel and lost track of this action. You indicated that you were going to send me a letter or email stating that you only possessed sealed sources under your NRC License No. 29-30863-01 and you have conducted leak tests of your sources and they have shown no signs of leakage.

I could not find your response.

Regards,

Randolph C. Ragland, Jr
