SUBJECT: SUMMARY OF AUGUST 27, 2024, MEETING BETWEEN U.S.  
NUCLEAR REGULATORY COMMISSION STAFF AND PACIFIC GAS  
AND ELECTRIC STAFF

On August 27, 2024, the U.S. Nuclear Regulatory Commission (NRC) staff held a meeting with representatives of Pacific Gas and Electric (PG&E). The discussion focused on issuance of the environmental assessment (EA) for the NRC's review of the license renewal of the Independent Spent Fuel Storage Installation at the Diablo Canyon Site, and in particular the issuance schedule pertaining to Section 107(g)(1)(B) of the National Environmental Policy Act of 1969, as Amended (NEPA). The NRC staff provided background information regarding the changes to NEPA that necessitated the discussion, described recent and upcoming activities to complete the EA, and stated that the EA and finding of no significant impact would be published by November 20, 2024. All meeting participants agreed that this date would be acceptable. This memorandum constitutes the NRC staff's consultation with PG&E regarding the EA deadline consistent with Section 107(g)(2) of NEPA.
