Subject: Supplement to NAC's Request for a Revision to Certificate of Compliance (CoC)
No. 9235 for the NAC-STC

Docket No. 71-9235

- References:
1. Model No. NAC-STC Package, U.S. Nuclear Regulatory Commission (NRC) Certificate of Compliance (CoC) No. 9235, Revision 25, April 17, 2024
 2. Safety Analysis Report (SAR) for the NAC Storage Transport Cask (NAC-STC), Revision 21, NAC International, November 2023
 3. ED20240097, NAC's Request for a Revision to Certificate of Compliance (CoC) No. 9235 for the NAC-STC, July 31, 2024
 4. ED20240122, Supplement to NAC's Request for a Revision to Certificate of Compliance (CoC) No. 9235 for the NAC-STC, August 22, 2024

NAC International (NAC) hereby submits a request to revise the NAC-STC Certificate of Compliance (CoC) No. 9235, Revision 25 (Reference 1). When creating revision 21 of the NAC-STC SAR Section 5.7.6, Figures 5.7.6-1 and 5.7.6-2 were unintentionally removed from the SAR. This submittal is restoring the figures as they existed in NAC-STC SAR revision 20. The headers of these pages contain revision numbers consistent with our administrative practices for pages with changes. The content on each page is being marked with revision bars even though there were no changes. The changes contained herein are common to the proprietary and non-proprietary versions of the NAC-STC SAR.

This proposed SAR revision is numbered to uniquely identify the applicable changed pages. Revision bars mark the SAR text changes on the Revision STC-24C pages (Enclosure 2) to the Reference 2 SAR pages. Enclosure 1 contains a summary of the changes to the SAR for Revision STC-24C. The headers of the SAR pages indicate Revision 24C and the submittal month and year.

In accordance with NAC's administrative practices, upon final acceptance of this application, 24A, 24B and 24C changed pages will be reformatted and incorporated into the next revision of the NAC-STC SAR.
