Hi Bryan and Jason,

I heard back from the Radiation Safety Officer (Jack Crawford) this morning about the AU memo. He verified that he wrote/signed this memo and that the individual was a recent AU for 10 CFR 35.200 uses (nuclear cardiology) under their broad-scope medical use permit. Mr. Crawford is named as the RSO on the permit (VHA Permit No. 24-15235-03) issued by our office to the Harry S. Truman Memorial Veterans' Hospital, Columbia, Missouri, under our NRC Master Materials License (NRC Lic. No. 03-23853-01VA). They are a broad-scope medical and research use permittee, and their Radiation Safety Committee has the authority to approve AUs for these uses. If you need a copy of their permit, please let me know.

Thanks,

Tom

**Subject:** Verification of VA AU

Bryan,

I am in receipt of an amendment request to add an AU to a Region I license which uses a VA permittee's memo as its basis. Can you please reach out through your contacts at the VA to independently verify the authenticity of this memo (attached)?

Thank you,
