Subject: FYI - Revised Estimated Completion Date - Vogtle 3 and 4 - UFSAR Scheduler Exemption Request

Ken,

By letter dated March 22, 2024 (Agencywide Document Access and Management System Accession No. ML24085A711), as supplemented by letter dated August 14, 2024 (ML24227A595), Southern Nuclear Operating Company (SNC, the licensee) submitted exemption requests for Vogtle Electric Generating Plant (Vogtle), Units 3 and 4. The proposed exemption requests are from the specific regulations of Title 10 of the *Code of Federal Regulations* (10 CFR), Part 52, Appendix D, Sections X.B.2 and X.B.3.c; and 10 CFR 50.71(e)(4), for submission of revisions and updates to the Final Safety Analysis Report (FSAR) including the plant-specific Design Control Document for the Vogtle, Units 3 and 4, to be submitted as a Vogtle, Units 3 and 4, combined FSAR by June 30 of every odd-numbered year. These proposed exemption requests would result in a submittal that must not exceed 24 months between successive updates, as required by 10 CFR50.71(e)(4).

By email dated April 4, 2024 (ML24095A241), the U.S. Nuclear Regulatory Commission (NRC) staff stated that it expected to complete this exemption request review by March 31, 2025. The NRC staff is revising that estimated completion date to September 30, 2024.

Thanks.
John
