Dear Aaron Daniels,

In the letter dated June 18, 2024, Atlas Technical Consultants, LLC notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 13-17732-01. Your letter is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML24176A249.

An environmental assessment for this action is not required because this action is categorically excluded under Title 10 of the *Code of Federal Regulations* (10 CFR) 51.22(c).

The NRC staff has reviewed your final status surveys. Based on its review, the NRC staff has concluded that residual radioactive material attributable to licensed activities does not exceed current NRC criteria, and the licensed facilities are suitable for transfer to your NRC License No. 05-35290-01. Based on these conclusions, your NRC Materials License No. 13-17732-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

If you have questions, please contact the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887.

Sincerely,

Laura B. Cender
